

Digital Heat Press Machine

Product Details

Product Characteristics

1. The equipment adopts a fully automatic production mode, printing + powder coating + drying fully automatic integrated production, which greatly improves production efficiency, and can be operated by one person, which greatly saves labor costs.
2. Machine uses CMYK and white color, it's directly print on PET film, Shaking powder, and heating on the PET film. then heat transfer the design on the garment.
3. Suitable for mass production in factories, with a daily output of 2000 pieces. At the same time, it is also suitable for customized production.
4. No engraving and stencil free, suitable for heat press printing system for all kinds of fabric. Affordably priced but technological advanced achieve the highest return on your investment.
